

Homeowners,

There is a program called "We are Home" that is intended to fill funding gaps related to repairing damage caused by the floods. If you have questions, there is contact information when you follow the link. We are simply passing it along and hope that if there are gaps in your needs, this program may be of some help. More information can be found at: <http://www.nashville.gov/mayor/news/2010/0629.asp>

Thanks,

The Board
